

### Applications

Playground Tiles are a great all round safety surfacing option for playgrounds and childcare applications. Versatile and durable they can also be used in home gyms, indoor play areas and general outdoor areas. This product can also be used with the Surefoot 'Cushion Tiles' which will allow critical fall heights to be met under Australian Standards.

### Benefits

- Made from recycled rubber
- Excellent slip-resistance
- Semi Porous allowing water drainage
- Beveled edges for safe transition
- Consistent thickness, density and performance
- 20% less rebound than traditional rubber surfaces to reduce long-bone injuries
- No abrasion hazard and no health hazard
- Anticipated service life of 7 years under normal conditions
